

# Phantom™

Lightweight Headset

# Change the way your team communicates in high noise

## Clear and Comfortable Communication Technology

CavCom's *Phantom™* lightweight headset combines the superior hearing protection of *RadioGear®* with the clarity and convenience of a noise-cancelling boom microphone. This lightweight headset will expand your team's ability to communicate in high noise without the added bulk and weight of a traditional headset. Compatible with most two-way radios, the *Phantom™* headset will change the way your team communicates in noise.
